

TECHNICAL SPECIFICATIONS:-

- Type of Machine :- Portable Articulated Arm Hydraulically Machine
- Model :- TapEasy-H60V
- Application :- Vertical Tapping Operation.
- Articulated Arm Mounting :- On any other machined surface with the help of four bolts OR Magnet OR Clamps.
- Capacity to Tap (Max.) :- M 60 on IS 2062 Gr. Steel.
- Working Area (Max.) :- R1100mm
- Working Area (Min.) :- R250mm
- Swing Arm Operating Stroke :- Max. 400mm
- Hydraulic Power Pack Cabinet :- 900mm x 600mm x 700mm Ht.(Mounted on wheels)
- R.P.M. :- 20 to 70 RPM.
- Torque Rating :- Max. 800 Nm for Continuous Load
- Hyd. Motor H.P. :- 10 H.P., 3Ph, TEFC.
- Hyd. Power Pack Tank :- 70 L.
- Operating Pressure :- 40 to 140 Bar.
- Total Weight of the Machine :- Approx. 600 Kg.(Including Panel)
